MEET PERFECTION

A HYBRID OF POWER FUNCTION AND DESIGN CREATING THE ULTIMATE HIGH PERFORMANCE E-BIKE

- 4KW electric motor that accelerates the bike to speeds of 70 km/h
- A removable Li-Ion battery with a range of over 100km that can be quickly charged from 0% to 80% within an hour.
- Regenerative braking tops up the battery whilst riding
- An ultra-strong, foldable frame, machined from a single block of 7075 high-grade Aluminium
- An integrated floating drivetrain, encasing a Rohloff 14 speed electronically shifting gearbox
- Front and rear exchangeable carbon fibre wheels with quick release mechanisms
- Ride adjustments can be made on the handlebar controls and via the Trefecta smartphone app
